Information to the REACH chemical regulation

(registration, evaluation, authorisation and restriction of chemicals)

Dear Sirs,

concerning to the REACH regulation coming into effect on June 1st 2007, we would like to state the following:

Our products and all accessories, as well as the applied material, are not part of the regulation. According to this, nothing has to be registered by our company.

Especially for the purposes of our customers, it is important to us to correspond to the regulations and demands of the EU, especially if aspects relevant for security and for health are concened. We are caring much about international standards, but we do not see any necessity to sign additional contracts or declarations.

We kindly ask you to refrain from sending of questionnaires or inquiries concerning the enforcement of the REACH regulation.

Thank you for your understanding. We are looking forward to a good cooperation with your company in future.

Best regards,

IDEAL – Werk

C. + E. Jungeblodt GmbH + Co. KG

Michael Weber
